

# COMMERCIAL (DG) LITE

## AA SERIES

The Commercial (DG - double glazed only) Lite has one simple purpose - to fulfil the requirements of very large, single-panel double glazed windows.

The Commercial (DG) Lite is capable of accepting an IGU (double glazed panel) up to 36mm thick, with a maximum weight of 400kg.

These windows can be coupled to create large walls of double glazing, or significant side-lites for 125mm door products.

A fixing pocket to the inside accepts a neat cover strip post-installation. Like most AA Series products, there exists the option of a 19mm hardwood reveal or for a 'commercial look' the A305 Reveal Equaliser (in aluminium).

All glass is installed into dual vinyl sided rebates, ensuring vibration free glazing. A co-extruded santoprene inner seal resists shrinkage & also assists with weatherproofing

### DOUBLE GLAZED SIZES

NOTE THAT HEIGHT & WIDTH MAY BE VARIED AS LONG AS TOTAL AREA REMAINS THE SAME (7.5 SQ. M. OR LESS), SUBJECT TO RESTRICTIONS ON HEIGHT vs. WIDTH RATIO

**NOTE:** ALL SIZES ARE TYPICAL RATHER THAN DEFINITIVE. FOR SIZES OUTSIDE THESE - INCLUDING MULTIPLE, COUPLED UNITS - PLEASE DISCUSS WITH YOUR RYLOCK SALES CONSULTANT

### Sizing

Window style & opening detail should be considered as viewed externally

Sizes indicated are the overall window size. Reveal is inline with outer frame dimension.

For Stud openings add 20mm to both height & width

### Glazing

Glazing strength to minimum N3 rating as per AS4055 - 2006

Double glazed panels typically contain 8mm toughened glass, 16mm air space, 8mm toughened glass

### Certification

Certified performance data including WERS ratings are available for this product on request

### Specify

Frame colour, height, width & overall depth

Optional: frame equaliser, frame infill, sill flap, glass type
